June 1, 2020 – Newport Beach, CA – Greenbriar Capital Corp. (“**Greenbriar**”). Greenbriar is pleased to announce that Greenbriar is seeking to obtain a full listing on the world class NASDAQ Global Market Select. Conditions to list on the NASDAQ Global Market Select are a minimum US \$4.00 share price, at least US \$4 Million in net current assets plus the appropriate registration and exemption filings with the US Securities and Exchange Commission. Greenbriar is currently conducting internal non-deal road shows via conference calls with our own 53,000 investors and followers. The Greenbriar story is resonating with a broad spectrum of investors.

Greenbriar is moving ahead to construct the sophisticated 160MWdc/80MWac Montalva solar project in Puerto Rico, which will become the largest solar facility in the Caribbean once completed. Greenbriar is very confident the project will expand to 320MWdc/160MWac in the very near future. A sizeable electro-chemical storage facility as part of the solar field will enable 24/7 dispatch which is unique in ultra-large scale solar generation facilities. Montalva will provide Puerto Rican citizens with lower-cost, clean and reliable electricity and replace some of the current expensive and dirty oil generation.

The company is proudly building the project with the China Machinery Engineering Corporation (**CMEC**), a leading world class premier construction and engineering company, forming part of the **USD \$40 Billion** China National Machinery Industry Corporation (**Sinomach**) group of companies.

Greenbriar has been informed by its legal counsel Luis Baco, JD, LLM, that the PREPA Governing Board has approved our project and contract this past Thursday May 28 and the contract has been presented to the US

“Greenbriar Capital Corp. was recognized as a TSX Venture 50® company in 2014. TSX Venture 50 is a trade-mark of TSX Inc. and is used under license.”

FOMB (US Federal Oversight Management Board) for final approval. In 2018 the US FOMB already recommended Montalva to be deemed a critical project to rebuild Puerto Rico. Montalva will provide over 900 construction jobs, an increased tax base and hundreds of millions of dollars of private funds invested to rebuild a new and resilient electrical grid. Greenbriar is proud of this contribution and its existing 12 year non-stop commitment in Puerto Rico.
